EXECUTIVE SUMMARY

I am a 5th semester student majoring in Informatics Engineering at STTIKOM Insan Unggul who is looking for career opportunities in the field of information technology. During my studies, I was responsible as a member of the research and development division in the computer and accounting student association who was tasked with being a peer tutor at the HAMKA Student Club (HSC). This is what makes me personally like sharing knowledge and telling stories. My hobbies are also making websites, UI/UX design, and Pixel Art. Has experience working in the IT field for 2 years and has a high interest in technology.
